HomeCare Elite™ 2008

A Listing of the Top Tier Home Health Care Agencies in the United States

The 2008 HomeCare Elite™ is the compilation of the most successful home care providers in the United States.

This ground-breaking review names the top 25% of those agencies whose performance measures in quality, improvement and financial performance are the best.

The 2008 HomeCare Elite™ also indicates those providers who were included in the Top 100 and Top 500 of providers nationwide. The data used for this study was based on publicly available information.

In order to create the list of HomeCare Elite agencies, OCS used publicly available data from Home Health Compare and the CMS Cost Reports. Three domains of performance were included in the calculation of the score – Quality of Care, Quality Improvement, and Financial Performance.

The Quality of Care measure indexes agencies' performance in each of the 12 public release Home Health Compare measures, representative of care provided from April 2007 through March 2008. The Quality Improvement index is based on changes in the 10 outcomes between data released in September of 2007 and in September of 2008. The Financial Performance measure represents the agencies' indexed profit margin from the 2007 CMS Cost Reports (or 2006 adjusted margin when 2007 data was not available).

Each agency's performance in each of the three domains was compared against the performance of other organizations in their state and in the country. The three domains were combined into one overall score, using a weighting methodology that gives the greatest importance to Quality of Care. The top 25% of agencies in each region, both hospital-based and free-standing, were identified and added to the national list. Additionally, the top 100 and 500 agencies in the country, based on overall score, were identified and highlighted for further recognition.
